Commission Hearing – December 4, 2006, Item 13

On December 4, 2006, the Commission on State Mandates adopted the final staff analysis and proposed amendments to the parameters and guidelines. The amended parameters and guidelines are being posted to the Commission's website (csm.ca.gov) under the "POBOR" button" and are attached to this electronic notification.

Reasonable Reimbursement Methodology

The Commission denied the proposed reasonable reimbursement methodologies submitted by the California State Association of Counties, the County of Los Angeles, and the Department of Finance because the proposals did not meet the following conditions in Government Code section 17518.5:

- (1) The total amount to be reimbursed statewide is equivalent to total estimated local agency and school district costs to implement the mandate in a cost-efficient manner.
- (2) For 50 percent or more of eligible local agency and school district claimants, the amount reimbursed is estimated to fully offset their projected costs to implement the mandate in a cost-efficient manner.

A reasonable reimbursement methodology may be developed by the Department of Finance, the Controller, an affected state agency, a claimant, or an interested party. A parameters and guidelines amendment, including a reasonable reimbursement methodology, filed on or before January 15, 2007 would establish eligibility for reimbursement for the 2006-07 fiscal year.

If you have any questions regarding this matter, please contact Nancy Patton, Assistant Executive Director at (916) 323-8217.

Dated: December 7, 2006

PAULA HIGASHI, Executive Director
